## COME SEE WHY OUR CUSTOMERS LOVE US!

"First time here & we had an awesome breakfast. All in our party had great food & service. Food was very good with large helpings. Very unique setting with the clock chiming every half hour. Beautiful fountains & foliage in the courtyard. Great atmosphere & fantastic food. We will definitely be back!"

"My new favorite breakfast stop in all of Scottsdale, hell the entire Phoenix area. Staff is amazing, the place was really cool to be honest, and the food hit the spot. What a neat area with a ton of history. Stop by to eat, shop, sight see, whatever. Great place."

"This place is fun. It's like a gas station meets a little cafe with great pizza by the slice decked out in old cowboy. There's stuff hanging from the ceiling, tons of decorations-borderline hoarder... Barely enough room to walk around all the stuff this place has to offer, oh and it's also a post office I guess. I guess we are just missing a drive thru marriage... If you're in the area or like pizza, I'd say give this place a try. I've only been here 2 handfuls of time and I find something new every time. It's like a fun game of Where's Waldo."

"The real reason you come here is for ambiance. It's got a cool 1940's soda fountain, wooden plank floors, red checkered tablecloths, and a darling

outside courtyard with burbling fountain.

Food is decent but nothing exciting. Expect burgers, sandwiches, chili, salads, & a daily soup. All day breakfast is a bonus with gigantic thick pancakes. (I prefer smaller, thin pancakes, but my daughter loved hers). Get a cherry, strawberry or chocolate phosphate for an old fashioned treat!"
